If possible, we could add in the template for our nurses the following entry which is also in red box below:

- a. Current Medication
- b. Purpose of Consultation
- c. History of Present Illness
- d. Physical Examination

The image shows a medical form template with several fields. The following sections are highlighted with red boxes:

- CURRENT MEDICATION**: A text input field.
- PURPOSE OF CONSULTATION**: A text input field.
- HISTORY OF PRESENT ILLNESS**: A large text area for detailed notes.
- PHYSICAL EXAM**: A text input field.

Other visible fields include: CIVIL STATUS (dropdown), O2 SAT (input), CHIEF COMPLAINT (input), OTHER SYMPTOMS (input), ALLERGIES (input), CATEGORY (dropdown), DISEASE (dropdown), DISPOSITION (dropdown with 'Treatment and send Home' selected), and REST REQUIRED(DAYS) (input).

3. We could change the “Test Done” to “Medication” so we could add the medicines of the patient (*image below*).

The image shows a patient record form. The following information is visible:

- Test Done:** (highlighted with a red box) Losartan 100mg once a day Morning Aldactone 10mg once a day morning Kalium Durule once a day morning Hemarate FA once a day morning Immuno pro once a day morning Amlodipine 10mg once a day evening
- DIAGNOSIS:** Nasopharyngitis, Hypertension Stage I - Controlled Secondary to Adrenal Adenoma
- REMARKS:** Avoid Sweet Food Products Low Salt, Low Fat Diet

4. When the “dashboard” is click, it does not go back to the Homepage.

5. The sidebar for nurse (add users): Please add the following (*which is in red box below*):
